U.F.A. IS IN CONVENTION AT CALGARY

Over 1,200 Delegates in Attendance—President Woods Urges Farmers to Hold Participating Certificates and Defend Canadian Wheat Board.

The annual convention of the United Farmers of Alberta opened in Calgary on Tuesday morning with an attendance of more than 1,200 authorized delegates, and the First Baptist church, where the main sessions will be held, was crowded to capacity by delegates and visitors. A large number of women were in attendance. Welcome was extended to the convention by Robert C. Marshall, mayor of Calgary; Rev. Canon James, on behalf of the Ministerial Association, and R. Underwood, chairman of the board of the First Baptist church. Rev. H. H. Bligham, pastor of the First Baptist church, opened the convention with prayer. Lieutenant Governor Brigg and Premier Stewart were not present when the meeting was started.

Disposition of the Canadian crop by the Canadian Wheat Board was defended by H. W. Wood, president of the United Farmers of Alberta, in an annual address to the convention. He said that the Canadian farmers, when the final distribution is made, will have received a higher average price than the farmers of the United States. President Woods expressed the opinion that the Canadian farmers have received for their wheat that they would have received if the United States market had been opened from the start. He referred to a rumor that a large quantity of the 1919 crop was sold by the government before the wheat board took charge. "The government," President Woods said, "did not sell a bushel of 1919 wheat except through the board."

President Woods denied that the board sold export wheat at a lower price than charged the millers, and that the millers had large stores of wheat on hand at the low price and are grinding it into flour at a higher price. He urged the farmers to hold their participation certificates to get the full price of their wheat. The value of the participation certificates at the present prices will be considerable, he said. Social unrest was discussed by President Woods. "If we are not actually facing a crisis," he said, "we are certainly facing a situation sufficiently grave to make every thinker man the depths. If there ever was a time for action based on sanity and sincerity of purpose, that time is now. There has never been a more urgent call for a powerful force to stand as a steady influence against the forces of chaos, social elements." This condition could be met by the organized farmers, he said, and he urged the farmers to stand for the aims and ideals of the organization. "Be true," he said, "the loyal, be progressive, be just to all men. Stand firm and be unshakable."

SAYS FARMERS MOVE IS CLASS LEGISLATION.

R. C. Henderson, M. P., deposed head of the Manitoba Grain Growers' association, of the treatment he has received. He charges that he was deprived of an opportunity of stating his position in the recent convention and that the farmers' movement in the present form is a mistake for "class legislation" and might. Mr. Henderson made long interview with Hon. Arthur Meighen.

Slight Blaze in Small Gas Building

Just at six o'clock last Tuesday evening a big flare of light just off Broadway, accompanied by the sound of the fire whistle, created some excitement for a short time. A fire in the reducing station in connection with the gas system was the cause. It appears that a lot of mud got through the valves in one of the gas wells, threw the lever out of place, thus increasing the pressure. The greatly increased pressure had the same effect at the reducing station and resulted in the gas escaping in large quantities. As a small light was kept burning in the building, the escaping gas ignited and set fire to the building. Although the building is only a small frame one it was completely destroyed.

As the house is completely isolated or other building caught fire and very little damage was done.

School Report For the Year 1919

Number of pupils enrolled in each grade for the year and percentage of attendance for last term:

Grade	No. Enrolled	Per cent
Primary	72	89.49
Grade I	65	83.09
Grade II	61	87.68
Grade III	42	93.30
Grade IV	30	85.12
Grade V	29	91.38
Grade VI	30	86.04
Grade VII	33	90.04
H. S. S.	43	82.03

Total enrollment for the year 459. Total enrollment for last term 333. Average attendance for term, 90.61 for the year 93.4.

Two Lives Lost In Calgary Fire

Two lives lost, property damage of more than a quarter of a million dollars, half dozen firemen injured, and many guests losing all their baggage and clothing, was the toll of the fire which destroyed the well known Empire hotel in Calgary early on Sunday morning. The fire was the most spectacular in the history of Calgary in many years, spots, both from its extent, ranging from a double building of 160,000 square feet, and, between Centre and First street east, and from the avenue back to the lane; also because of the many dramatic episodes in the history of the burning. The fire building. Some were taken from the first windows of the hotel down into the street, where they were removed from fire escape in the rear of the building. Approximately 200 men, women and children ran from the burning structure, many of them half dressed, others clad only in their night robes, and carrying what articles of clothing they could snatch up.

Aliens Ask Dutch Gov't For Kaiser

The supreme council has drafted a note to the Dutch government asking for the extradition of the former German emperor. The note refers to Article 27 of the treaty of Versailles and invites refusal to join the allied powers in the enforcement of the said article. Article 27 of the treaty of peace with Germany declares: "The allied and associated powers publicly renounce William II, of Hohenzollern, formerly German emperor, for a supreme offence against international morality and the sanctities of treaties."

Considered Triumph For Soviet Power

The newspapers of Moscow describe the final lifting by the allies of the blockade against Russia as a great triumph for the Soviet power and proof that the Soviet government is established and declare it has brought about a great advance toward reconstruction, says a Moscow wireless dispatch received in London last Saturday morning. It is added that it will be difficult for the allies to enter Russian ports unless some sort of a blockade is arranged.

Successful Evening In G.W.V.A. Rooms

The G.W.V.A. and dance given in the G.W.V.A. rooms last night by the L.A. attracted a goodly crowd and a most enjoyable evening was spent. It is the intention of the L.A. to give one of these social events every second Wednesday.

One of the noticeable features of last night's gathering was the absence of any children under 16 years of age. The winners for the white drive were Miss G. G. Mrs. Jardine, J. A. Dutton and R. Miller. On the whole this was one of the most enjoyable evenings of the season and an exceptionally large crowd was in attendance.

A Soul Is Lost! Whose Is The Fault?

(By Ada Patterson.)
A woman sobbing to a neighbor that she was going to leave her husband and her five-year-old child, "I blame myself," she said, "It is my fault. I never told her what she ought to have known. I didn't like to." The woman's story. And a girl may go out into the wilderness of a great city and be deserted by a lover because a minor fault did not like to tell her some of the physical facts of life that all must learn. Then will you learn again gradually, in the unceremonious simplicity of childhood or in shame and anguish doled out upon the mother.

CAPT. C. S. PINGLE, M. P. P. For Redcliff constituency, who has been selected as speaker of the assembly.

LOCAL G. W. V. A. NOTES.

The L.A. to G.W.V.A. will hold a "white drive and dance" in the club rooms every second Wednesday evening. The next will be held on Wednesday evening, February 4th. No children under 16 years of age will be admitted to these events.

The club rooms will be open for dancing every Saturday evening from 8 to 12 o'clock. Everybody welcome. Admission free for gentlemen. Ladies free. The association has decided to hold these social evenings as a result of the request from a number of friends who are desirous of having some kind of entertainment on Saturday evenings. Whether or not these will be continued through the season will depend on how well they are patronized by the public.

It is the intention of the G.W.V.A. to resume their Sunday evening concerts as soon as the weather is more settled. Watch for further announcements.

Farmer and Labor May Join Politically

Conference between the executive of the U. P. A. political association and the Alberta executive of the Dominion Labor party, with a view to the formation of political co-operation between the organized farmers and organized labor took place at the U. P. A. now in convention at Calgary. The fact was recognized by the U. P. A. that labor and the farmers have some things in common and in these matters they should seek to co-operate in every way. Power to the people is the common goal of both parties, however, does not rest with our executive, but with the farmers themselves now organized in the various districts, and the matter is therefore left to the constituents.

Russell's Appeal Has Been Dismissed

The Manitoba court of appeals in a judgment handed down Monday morning dismissed the appeal entered by the defense in the R. B. Russell case against the verdict and sentence passed by Mr. Justice Metcalfe and jury. The decision was unanimous and the sentence will be upheld. The right to the supreme court of Canada on that account. The defense counsel, however, can make application for a habeas before the supreme court in London, England. No indication was given as to whether or not this step would be taken.

POLITICAL ASS. DENOUNCED BY THE HAT U. F. A.

At Meeting Held in Calgary—Advocates Asking Political Executive to Resign.

Denunciation of the U. F. A. political organization and demands for its dissolution were expressed by various speakers at the annual convention of the district political association for the constituency of Medicine Hat, in the Bandstand hall in Calgary last Tuesday. It was alleged that the political association had sought to usurp functions of the industrial organization of which H. W. Wood is president.

L. Proudfoot, one of the directors of the Medicine Hat association, declared: "We hoped that there would be harmony between the two organizations, but I understand that our old executive has been served with notice that no provision be made for the slightest degree of political matters shall be sent out by our U. F. A. central office. The answer of our president was, 'What are you going to have us do—draw our salaries and do nothing?' Mr. Proudfoot declares that it should be made to resign. The political executive to a new, and if it failed to do so, that a new political executive be elected. The political association should be called within three days by wire."

Will Prohibit the Storage of Liquor

Legislation will be sought at the coming session of the legislature to make the storage of liquor in Alberta illegal in Dominion warehouses, except in the case of liquor for export. Hon. J. R. Boyle, attorney-general, announced that after careful consideration of the liquor problem, he felt that a law of that kind can be enacted and his purpose at present is to submit a bill accordingly as part of the government program. The decision has been reached in view of the numerous cases of the storage of liquor in violation of the laws of the province. The attorney-general expects that the liquor law will be passed in this way to prevent the warehousing of liquor in any part of the province, though inter-provincial shipments through the province, under the existing law, be interfered with.

Lethbridge Irrigation Scheme is Feasible

That the Lethbridge Northern Irrigation project is entirely feasible and capable of being carried to a successful conclusion is the gist of a report made by George Anderson, the noted Californian irrigation expert, when the Alberta government employed to make a survey of the Southern Alberta scheme.

Mr. Anderson presented his report Saturday to the government minister at Edmonton, and while it has not yet been made public, he said that it speaks in very favorable terms of the Lethbridge Northern project. Mr. Anderson went over the entire ground, examined all the surveys and presented a very exhaustive report on the subject.

Gov't to Assist Disabled Soldiers

Instructions have been issued regarding the procedure to be taken by eligible ex-servicemen of the forces in applying for loans to enable them to secure tools and equipment on completion of course, or to provide for the purchase of industrial or scientific training under certain conditions.

Total Prohibition In United States

Nation-wide prohibition in the United States by constitutional amendment—the dream for years of those opposed to the sale of liquor—became effective last Friday night with the enactment of justice and bureau of internal revenue, the two governments agencies entrusted with the enforcement of the new law, ready to begin their drastic action against all violators. Commissioner Kramer said he had a number of two days in jail, with a fine of \$100 for each day, ready to begin their work at midnight. Mr. Kramer's bureau has \$2,000,000 with which to conduct its work until July 1st.

TWO GOOD MOVIES.

The move on the part of the local G. W. V. A. and its L. A. to delight children from their several evening entertainments, such as whist drives and dances, is one in the right direction, and one which should receive the hearty endorsement of parents and children alike. Of the parents because it will relieve them to some extent of any argument with their children in this connection, and of the children because although they may not realize it now, it will ultimately be to their benefit. It would be well if other organizations in town would follow the example of the G. W. V. A.

We often hear the young people in town, and older ones too, for that matter, complaining about having nothing to do in the evenings in the way of amusements. In an endeavor to fill this need in the community the entertainment committee in connection with the G. W. V. A. has made arrangements to hold a whist drive and dance every second Wednesday, and to throw their club rooms open Saturday night from 9 till 12 for dancing. For both these evenings good music and other accommodation will be provided and those who patronize them will be assured a pleasant social evening. We have no doubt that this will be greatly appreciated by all concerned. Much of their success, however, will depend largely on how they are patronized, as it will be considerable expense to the association to carry on along these lines. The Review would request that as liberal support as possible be given to this undertaking as the matter of amusement is one of great importance to the town.

The manager of the Amuse-U Theatre is going to some considerable expense to have one of the best films on the road shown in his theatre here next Monday and Tuesday, January 26 and 27. Whether we are to have more this class of pictures from time to time will depend on how this one is patronized. This picture has a strong moral lesson and is endorsed by leading men and women throughout Canada. It would be well worth seeing.

In another column of this issue the Provincial Department of Agriculture has an advertisement drawing attention of farmers who may be desirous of securing loans under the Live Stock Encouragement Act for the purchase of cows during the year 1920. We would advise all farmers interested to look up this advertisement.

Several complaints have been registered about the bad habit some of the younger men have of shouting yelling and otherwise kicking up a rumpus when going to and from their work at the different industries in the middle of the night. On several occasions people have been aroused out of their beds thinking there was a fire and that someone was calling for help. Some day it may be another case of the boy who hollered "wolf" just to frighten the neighbors. One day the wolf did come and tackle the boy but no one paid any attention to his calls for help.

Dairying in Sask.
Is Paying Business

The value of dairying throughout Saskatchewan is rapidly becoming a considerable factor in the wealth of the province. Every year sees an increased factories and a corresponding increase in the value of their products. Production figures for 1918 are \$4,39, per cent against \$4,19, 1917, and the increase is a striking evidence of what the Saskatchewan farmer was doing to relieve the shortage in fat foods during the period of the war. That the capital part of the province is undergoing the greatest development and demonstrating its ability to produce dairy products, is evident by the fact that in four years its dairy industry has increased more than 165 per cent. This has been done in spite of the fact that during the past few years the abnormally high prices which have prevailed for all classes of grain and concentrate feeds, and the extreme shortage of labor during the war, have tended to make dairy development very difficult.

Big Development

In Canadian Movies

The most important development which has yet taken place in the Canadian motion picture field was announced this week, when particulars were given out of a \$10,000,000 transaction by which a new Canadian company acquires a chain of theatres running right across the Dominion of Canada with eventual seating capacity of 45,000, together with the exclusive Canadian rights for 20 years for the first run exhibition of the films of the Famous Players-Lasky Corporation.

The transaction means a great step forward in the control by Canadians of their own motion picture entertainment, and will probably make Canada an important link in a world-wide motion picture organization, embracing the United States and the whole of the British empire.

Saskatchewan Firts

For Prohibition Vote

The Saskatchewan government is the first of the provincial governments to take action towards invoking the provisions of the Canada Temperance Act for the purpose of taking a referendum of the people of the province on the question of prohibiting the importation into the province of intoxicating liquor for beverage purposes. The first official intimation of the intention of the government came in the form of an announcement from Hon. W. F. A. Tupper, attorney-general, that he intended to introduce a motion in the house on Thursday, asking the assembly to set in motion the necessary machinery for taking such a referendum by application to the federal government.

Alberta Horses

Are Too High

Desirable horses are not available in Southern Alberta for export to Manitoba, according to Robert Cruise, M. P. for Dauphin, Man. Mr. Cruise was at Calgary on Saturday after visiting several points in the province for the purpose of buying horses for shipment to Manitoba. Good horses he said, were too expensive in Alberta to be shipped profitably to Manitoba, while the horses of low price were not in the best condition for shipment.

Over 4,000 Flu

Cases in Chicago

Influenza, in a mild form continues to spread in Chicago at the rate of 1,100 new cases every 24 hours. All available trained nurses are being mobilized by the health department to help to combat the epidemic. The total number of influenza cases exceeded 4,000. The hospitals are filled. During the last 48 hours 3,279 new cases of influenza were reported and the death number 25. There were 383 cases of pneumonia, and 66 deaths.

Take Whiskey Across

Now In Radiators

Motor owners in the border towns and cities in Ontario have been found taking liquor over to Detroit and other Michigan towns in the radiators of their cars. They have been able to take from two to three gallons on each trip.

With whiskey selling in Canada at \$14.60 for three gallons in bottles and worth from \$55 to \$80 in Detroit the profit has proven too tempting to resist.

E. W. BEATTY, K. C.

The popular president of the C. P. R., who is now making a tour of Western Canada, and passed through here on a special last night.

Japan's object in agreeing to co-operate with the United States in supporting the Czech-Slovak troops in Siberia has been attained and the withdrawal of Japanese troops from Siberia will follow.

Charges of Rear Admiral Sims that the U. S. navy department failed to co-operate fully with the allies during the great war will be investigated by the senate sub-committee, before which they were made.

Scotland Will Invest In Western Canada

Wealthy concerns and individuals of Scotland are ready and willing to provide plenty of money for any legitimate development in western Canada, says Vernon with interest on the Glasgow stock exchange. Statements to this effect were made by James Dumsma, director and financial agent of the Alberta-Pacific Dominion Co. Ltd., Glasgow, who returned to Calgary on Tuesday after spending two years in Scotland. Mr. Dumsma made five trips between Canada and Scotland during the war.

"There is plenty of money in Scotland," said Mr. Dumsma, "more than ever before. The country is just full of money. Industrial and commercial Canada can get all the money required."

Western Canada, Mr. Dumsma said, would receive many desirable emigrants from Scotland, and was raved as a place for investment. The exchange would have to be adjusted, however, before money would be sent from Scotland to western Canada.

"The indications are," Mr. Dumsma said, "that there will be a large emigration from Scotland to Canada, particularly into western Canada, which will probably start this year. Interest in western Canada is growing among the better type of people in Scotland."

"Scotland," he said, "is ready to put money into legitimate development in western Canada. Very little money will come into Canada, however, until the exchange rate is made right. The exchange rate will be adjusted by Canada switching her trade, purchasing more from England and less from the United States."

Many Immigrants Coming to Canada

Immigration figures up to the end of November show that the total number of immigrants who entered Canada during the previous twelve months was 114,768, of whom 54,641 came from the United Kingdom, and 52,141 from the United States. For the month of November 1929 there is a comparison with 1928 in November, 1928. During the past eight months 51,450 entered, the nationality being as follows: English, 36,519; Welsh, 523; Scotch 6,412; Irish, 2,137; American, 17,721; other countries, 5,114. Practically all the efforts of the immigration department are now being directed to the United States and Great Britain, with the main stress being laid on the former. At present the balance of emigration is rather in favor of the United States, but it is pointed out that the figures for that country are artificially swollen by the fact that many of those going over are discharged soldiers from the United States who enlisted in the Canadian forces.

The British government is now paying the passage to Canada of all war workers who desire to come to Canada. A committee of selection from Canada is now in Great Britain to pass on the agricultural qualifications of those who seek to come to Canada. Both east and west are represented on this committee, as stress is being laid on settlement in the eastern provinces now that the most of the available land in the west has been withdrawn.

U.F.O. Buys Twine In United States

A contract for about 100,000 tons of binder twine at about \$400,000 has been assigned by J. J. Morrison, secretary of the United Farmers of Ontario, for the United Farmers' Co-operative Company of Ontario, with the International Harvester Company of Chicago, and this has aroused a storm of criticism among Canadian farmers. J. Lebow, business agent of the United Farmers' Co-operative Company, replying to some of the criticism, said:

"We would like to do business with a Canadian firm. It is a matter of dollars and cents and obligations to the people."

Mr. Morrison takes the stand that the co-operative company is a joint stock company, and can buy where it pleases. The company is a business concern, he says, and it is up to the company to buy in the cheapest market. Mr. Morrison says the quantity of binder twine bought by the farmers company is less than 100,000 tons.

The radicals who were deported from the United States were given an official reception just outside of Toronto, Finland. In the crowd that greeted Alexander Barkman, Emma Goldman and their "comrades" was M. Zerkov, a member of the all-soviet executive committee, who after a brief conference with Barkman agreed to permit the whole party to enter Bolshevik Russia.

ITEMS OF LOCAL INTEREST

Children's gas at snap prices to clear, Blundell's.

Donald McLaughlin is spending a few days in Calgary this week on business.

Mrs. S. E. Gust, of Medicine Hat, spent a few days in town this week the guest of Mrs. C. V. Gibson.

Get your clothes cleaned, pressed and repaired by James Jardine, next door to Imperial bank.

School Inspector Parr, of Grand Prairie, Alberta, spent last week end in town visiting his uncle, Dr. J. Clary Way.

Messrs. P. H. Waddell and Frank Schram are representing the Harvest Vale U. F. A. at the convention in Calgary this week.

No longer need mothers tell their girls. Just take them to see "Blighthen Thy Daughter" at Amuse-U theatre Monday and Tuesday, January 26 and 27.

As a result of Alberta government investigation it is possible that an air service will be established from the international boundary to Fort Vermilion with a string of aerodromes along the eastern slope of the Rocky mountains.

The members of the hand with to thank Mr. Brubaker and all associated with him in getting up the box seats and dance held last Friday evening for the benefit of the band. The profits which amounted to \$24.25, were thankfully received by the band treasurer.

At the U. F. A. convention being held in Calgary this week, P. H. Waddell, secretary of Harvest Vale local, was elected one of the directors for District No. 3, which takes U. F. Medicine Hat federal constituency.

The ladies of the Alter Society will give a dance in Red's hall on Wednesday, February 11th. The Wills-Hang orchestra will furnish the music and refreshments will be extra. Tickets \$1.00 per couple, extra ladies 25c. All are invited to attend. Tickets may be secured from members of the society.

Owing to the bad weather the show on social given by the Broadclaw U. F. A. was not the success it otherwise would have been. The snow was held in the Bivell school but only a small number of these living in the immediate vicinity were present. However those who braved the storm and had reads spent an enjoyable few hours in games of various kinds and closed with a dance.

What might have been a bad fire was narrowly averted at the Redcliff hotel this morning by the prompt action of the proprietor and his assistants. Some repairs were being made on the gas meter and fixtures in the basement when suddenly a flame from the casing gas burst out. For a time the situation looked serious but the prompt use of the hotel hose soon removed all danger. Very little damage was done.

Let us handle that subscription. We do it right. Blundell's.

Miss Clara, who has been unable to attend her duties as teacher at the school for the past few weeks, returned to school this week.

A Soul is Lost! Was it the fault? See "Blighthen Thy Daughter" at the Amuse-U theatre Monday and Tuesday, January 26 and 27.

Dr. Brown left last week for his new field of labor at Strasburg, Sask. Mrs. Brown and daughter are still here.

Owing to the tie-up in the train service for the first few days this week very little mail came through and the people were without daily papers from Grand or west.

Mrs. (Dr.) Brown will be at the doctor's office on Broadway every evening from 7.30 to 8.30 to receive settlement of all outstanding accounts.

Owing to a sudden illness Dr. Thayer was unable to conduct the service at the Presbyterian church last Sunday evening. As a result there was no service.

The public blames the girl; the girl blames her mother. Who's in the fault? See "Blighthen Thy Daughter" at the Amuse-U theatre Monday and Tuesday, January 26 and 27.

Sixteen thousand acres of oil lands in the Athabasca country were sold to a syndicate in the eastern states, and development of the property, which is on the Athabasca river below Fort McMurray will begin early in the spring.

"It's all your fault, mother, you never told me." No longer will girls say this if mothers will take the daughter to see "Blighthen Thy Daughter" at the Amuse-U theatre Monday and Tuesday, January 26 and 27.

The teen age boys of the P. C. S. Y. club in the Athabasca country intend putting on a concert in the church on Thursday evening, Feb. 6th. A good program is being prepared for the occasion. Tickets are now available from members of this class.

As a result of the heavy snow fall and a snow slide near Field, the train service through here has been almost completely discontinued. For the first three days this week there has been no regular schedule but the service is expected to be back to normal today.

Farm products in Alberta for the present year are valued at \$31,625,000, according to the announcement of the dairy commissioner, an increase of more than four million dollars over last year. The better production of ten and a half million pounds is alone worth over \$5,500,000.

The heavy snow fall last Saturday and Sunday has made the country roads almost impassable. About a cord of snow on the level is about a record for this time of year. Although it will make it hard for the stock to run feed these days it should make considerable moisture for the spring work on hand.

British records. Shipment just received at Blundell's: 90c each; double disc.

The box social and dance given in Red's hall last Friday evening, by some young men of the town, under the auspices of the box was not as largely attended as is the custom for such gatherings. Those who were present, however, had a thoroughly enjoyable evening. The boxes were of various designs and each brought a good price, one going as high as five dollars.

No Direct Menace In India at Present

While there is seemingly no dispute of the motives of the Red armies to Persia and neighboring countries, there is said to be no direct military menace to India at the moment. The main danger to India, it is said, lies in the religious and political propaganda which the Bolsheviks are assiduously spreading among the extremists there with the purpose of starting a revolt.

CANADIAN CORN TAKES PRIZE AT EXPOSITION.

Corn lands in South Dakota are said to be selling as high as \$20 per acre. Recently at the International Soil Products Exposition at Kansas City, Mo., John Hamilton, of Kellwood, Man., acquired the first prize for North Western Dent corn, which would indicate that Canada may be in "the Corn Belt" after all.

DESCHANEL ELECTED PRESIDENT OF FRANCE.

Paul Deschanel was elected president of the republic of France by 734 votes of the 889 members of the national assembly voting. His majority was the largest since the election of Louis Adolphe Thiers, the first president after the fall of the empire, who was chosen unanimously.

MEDICAL BUILDING TO BE BUILT IN ALBERTA.

New medical building, to cost when complete \$750,000, is to be erected for the University of Alberta. Draft plans have already been prepared, and the intention is to begin construction as soon as weather conditions permit in the spring, in order that a portion of the structure may be available for use when the fall term opens.

TO BUY SEED GRAIN

This Bank is desirous of being of assistance to progressive farmers.

Should an advance be necessary to buy seed grain—call and see our local Manager. He will be glad to discuss with you any matters in relation to the financing of your products.
